# SEALING & BONDING SIKA CONSTRUCTION ADHESIVES

BOND WITH THE STRENGTH  
OF COUNTLESS CHEMICAL “SCREWS”

BUILDING TRUST

# SIKAFLEX®-111 STICK & SEAL

Flexible multipurpose sealant and adhesive

## USES

- For indoor and outdoor use
- Good application properties as adhesive and sealant
- Bonding and sealing of common construction materials and EPS / XPS insulation boards, building wraps and many PVC materials

## ADVANTAGES

- No bleeding on bitumen
- Good weathering ability
- Very wide adhesion range
- Easy to apply
- Elastic and durable bond, long-lasting and tight connection

## PACKAGING AND COLOURS

- 290 ml
- White

# SIKAFLEX®-112 CRYSTAL CLEAR

Transparent construction adhesive-sealant

## USES

- For indoor and outdoor use
- Invisible bonding of most common construction materials
- Invisible sealing around bonded objects

## ADVANTAGES

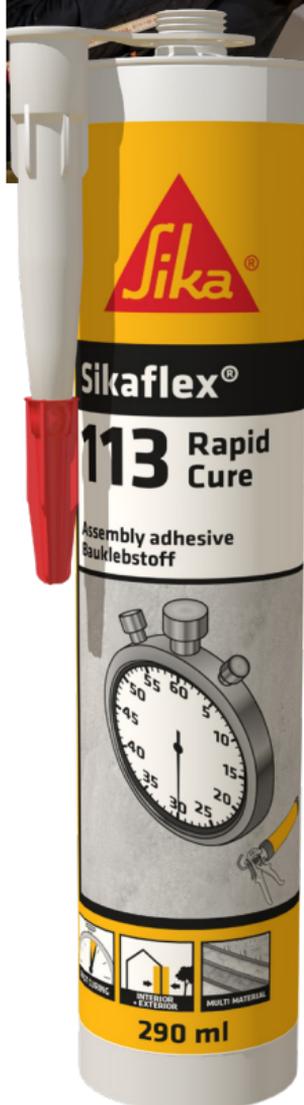

- Is transparent and stays transparent
- Good initial grab, no temporary fixing required for light objects
- Strong, durable and elastic bond

## PACKAGING AND COLOURS

- 290 ml
- Transparent

# SIKAFLEX®-113 RAPID CURE

Fast curing assembly adhesive-sealant

## USES

- For indoor and outdoor use
- For assembly and installation works
- For bonding common construction materials like glass, metal, EPS / XPS, coatings, concrete, masonry, most stones, ceramic and wood

## ADVANTAGES

- Rapid curing. Handling after 20 min. possible
- Easy-to-apply
- Excellent adhesion to glass and metal
- Compatible with EPS/XPS, Styrofoam

## PACKAGING AND COLOURS

- 290 ml
- White

# SIKABOND®-115 STRONG FIX

## Interior decoration adhesive

### USES

- For indoor use
- For bonding on porous construction materials such as concrete, mortar, fibre cement, wood and plaster
- For bonding of skirting boards, wood frames, battens and moldings, panels, terracotta tiles, anodized aluminum, hard PVC profiles, polystyrene moldings and ceiling tiles

### ADVANTAGES

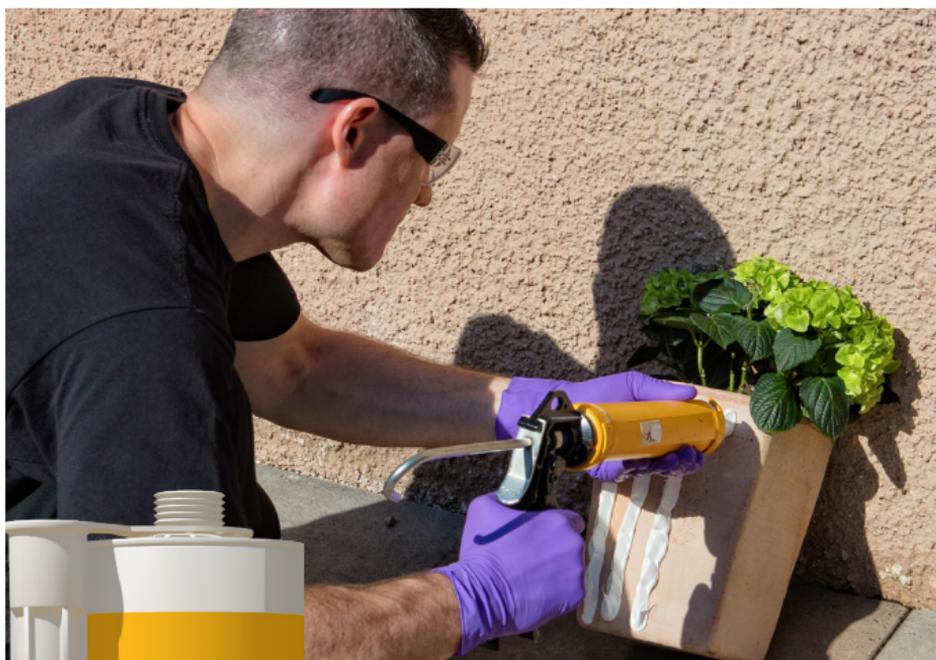

- Best-in-class lap shear strength
- Fast build-up of strength
- Best-in-class adhesion
- High final strength

### PACKAGING AND COLOURS

- 290 ml
- White

# SIKAFLEX®-118 EXTREME GRAB

## High grab construction adhesive

### USES

- For indoor and outdoor use
- Bonding and sealing of stones, bricks, window and door sills, mirrors, wood beams and heavy landscaping coverings
- Wide adhesion profile; for concrete, mortar, natural stones, clinker, fibre cement, ceramic, wood, metals and glass

### ADVANTAGES

- Best-in-class extrusion force to initial grab ratio
- Fixing of heavy objects without temporary fixing. Adhesive keeps the object in position in the uncured state and during curing
- Good weathering ability, durable and strong bond

### PACKAGING AND COLOURS

- 290 ml
- White
