PRODUCT CATALOGUE

INTRODUCTION

Everbuild – A Sika Company belong to Sika AG, a globally active speciality chemicals group with subsidiaries in 101 countries offering a comprehensive range of products including waterproofing systems, sealing, bonding and speciality mortars across many construction and associated industry sectors. Sika has a strong innovative tradition, constantly striving for new levels of excellence. This means developing innovative products and solutions that will open up new opportunities for the company, its employees and its partners in trade and industry. Founded by Kasper Winkler in 1910, Sika now employs over 20,000 people worldwide with sales of more than CHF 7.09 billion in 2018.

At Everbuild – A Sika Company we are passionate about the Everbuild and Sika branded products that we produce and have always worked on the simple premise that Trade Users will only come back for good products, so that's all we make!

This simple philosophy combined with a commitment to invest in new product development and manufacturing infrastructure has seen us grow into the UK's leading sealant, adhesive and building chemical brand with sales in excess of £108 million.

IF IT MATTERS WE MAKE IT

World Class Manufacturing

Over 80% of our product range is manufactured in our state of the art manufacturing facility where we can produce in excess of 55 million cartridges a year and with our polymer plant we even make our own PVA, Wood Adhesive and Acrylic Polymers. Our manufacturing plant gives us the ability to compete on a global scale, and our customers the peace of mind that they are dealing with a manufacturer with in-depth technical ability.

World Class Service

With 99% stock availability, over 99% order and picking accuracy, dedicated sales contacts, highly developed order collation, quick order turn arounds and rapid deliveries we always aim to exceed our customers' expectations.

World Class Assurance

In an ever more complex world we understand that product accreditations, certification and testing are increasingly important, particularly in the construction sector. From an ISO 9001 quality system accredited by the British Standards Institute to CE approved products, comprehensive fire, acoustic and thermal tests, through to the environmental standard ISO 14001 and the Occupational Health and Safety Management standard OHSAS 18001, you have the assurance of dealing with a company that is setting industry leading standards in product testing and compliances.

MAXIMUM TORQUE

Maximum Torque is the ultimate high initial grab adhesive, providing a level of immediate grab strength not previously possible with cartridge packed adhesives. Maximum Torque has the ability to bond almost everything to anything in virtually all conditions, even under water or in the rain.

Uses

- Bonding Brick Slips
- As a high quality nail replacement adhesive, even to damp surfaces
- External and internal perimeter pointing around doors and windows
- Bonding mirrors to most common substrates
- Jointing cladding panels
- Bonding difficult materials such as plastic, metals and fiberglass
- Any application requiring high performance, durable bonding of joints

Benefits

- Incredible initial grab. Double that of most common grab adhesives.
- High ultimate bonding strength
- Can be applied to damp/wet surfaces
- Totally waterproof & weatherproof
- Overpaintable
- Resistant to temperature extremes -40°C to +80°C
- Permanently flexible

Colour: White

Size: 290 ml

STIXALL

The ultimate combined building adhesive and sealant, based on hybrid polymer technology with the most extreme power to both bond and seal virtually everything to anything in almost all conditions, even under water

Uses

- High quality nail replacement adhesive, even to damp surfaces
- Perimeter pointing around doors and windows, especially in mobile structures such as caravans and boats
- Bonding mirrors to most common substrates
- Automotive gap filling and sealing
- Jointing cladding panels

Benefits

- Incredible initial grab, no slip and gap filling properties
- Can be applied to wet surfaces
- Totally waterproof & weatherproof
- Quick curing
- Overpaintable
- Resistant to temperature extremes -40°C to +100°C

Colour: Crystal Clear

Size: 80 ml

STICK2 EPOXY PUTTY

A two component epoxy based putty for repairing, bonding and rebuilding virtually any material. Will adhere to wet surfaces, totally waterproof once dried

Uses

- Suitable for use on most materials
- Quick repairs
- Bonding
- Sticking
- Molding
- Rebuilding

Benefits

- Easy to apply
- Will adhere to wet surfaces
- Totally waterproof once dry

Colour:

Size: 50 g

STICK2 EPOXY PUTTY AQUA

Two component putty that has been specially formulated for permanent repairs to damp, wet areas and underwater substrates such as tanks, drums, pipes and castings

Uses

- Can be applied underwater, both fresh and salt, and will bond to substrates such as fibreglass, metal, wood, concrete, ceramic, glass etc.

Benefits

- Mixes in one minute
- Totally waterproof once dried
- Can be used on wet surfaces and underwater

Colour:

Size: 50 g

STICK2 RAPID EPOXY TUBE ADHESIVE

Industrial strength, two-part, clear adhesive which sets hard in just 4 minutes

Uses

- Ideal for bonding metals, glass, wood, china, dry concrete, rubber, fabrics, crystal, jewellery/precious stones and various hard plastics

Benefits

- Industrial strength
- Sets hard in just 4 minutes
- Non-drip formula
- May be drilled, sanded, machined and painted once fully cured

Colour: Clear

Size: 2 x 12 ml tube

STICK2 RAPID EPOXY SYRINGE ADHESIVE

Industrial strength, two-part, clear adhesive which sets hard in just 4 minutes

Uses

- Ideal for bonding metals, glass, wood, china, dry concrete, rubber, fabrics, crystal, jewellery/precious stones and various hard plastics

Benefits

- Industrial strength
- Sets hard in just 4 minutes
- Non-drip formula
- May be drilled, sanded, machined and painted once fully cured

Colour: Clear

Size: 24 ml syringe

STICK2 RAPID EPOXY METAL

A two part adhesive which sets hard in just 5-10 minutes. Due to its exceptionally high bond and repair strength, this product can be drilled, sanded, machined and painted once fully cured

Uses

Ideal for bonding:

- Metals
- Glass
- Wood
- Ceramic
- China

Benefits

- Sticks all metals including iron, steel, aluminium & bronze
- Easy to mix syringe
- 10 Minute rapid bond

Colour:

Size: 24 ml syringe

STICK2 ALL PURPOSE SUPERGLUE

High strength adhesive. Fills gaps up to 0.1 mm and is perfect where a fast set is required. 1 minute instant bond

Uses

- Sticks plastic, wood, glass, rubber, metals, ceramics, PVCu and much more

Benefits

- Re-sealable cap
- 1 minute instant bond
- High strength universal

Colour: Clear

Size: 3 g

STICK2 SUPERGLUE GEL

A high viscosity formula that is ideal for bonding most common materials, non-drip, vertical, porous or small gap filling applications

Uses

- Bonds most types of wood, plastics, metals, paper, porcelain, rubber, cardboard and leather

Benefits

- High strength
- Sticks plastic, wood, glass, rubber, metals, ceramics, and much more
- Re-sealable cap
- 1 minute bond

Colour: Clear

Size: 3 g

STICK2 ALL PURPOSE CLEAR ADHESIVE

Strong, clear, quick drying adhesive suitable for a variety of household repairs and hobby uses, and will stick to a variety of materials

Uses

- Sticks ceramic, porcelain, wood, card, paper, most plastics, leather, cork, linoleum, rubber, stone, glass, metals and dense fabrics

Benefits

- Re-sealable cap
- 5 minute re-positionable
- High strength universal

Colour: Clear

Size: 30 ml

STICK2 INSTANT BOND CONTACT ADHESIVE

A premium-grade rubber-based contact adhesive suitable for use with a wide variety of materials for both professional and DIY use

Uses

- Laminate materials
- Bonding PU foam or mineral wool panels to plasterboard
- Bonding metals to most surfaces
- Bonds wood, rubber, most plastics and leather, cork, lino and rigid PVC

Benefits

- Excellent adhesion - adheres to most common surfaces
- Exceptional bond strength - outperforms conventional wood glues
- Internal and external use

Colour: Beige

Size: 30 ml

STICK2 TEXTILE ADHESIVE

A quick setting clear adhesive for bonding a variety of textiles and fabrics

Uses

- Cloth, canvas, fabric, leather, foam, paper, sponge, cardboard and stone
- Also bonds non porous surfaces such as plastic, PVCu and metals

Benefits

- Instant Bond - 1 minute
- Great for just about any textiles
- Low VOC

Colour: Clear

Size: 30 ml

CEMSTRIP

A new type of cement, concrete and mortar stain remover that provides a more environmentally-friendly alternative to conventional hydrochloric acid based cement removers

Uses

- Removes cement, mortar and concrete on most mineral surfaces such as paths, patios and walls
- Cleaning tools, cement mixers and other building equipment

Benefits

- Safer to use than conventional Hydrochloric acid based products
- Ready to use spray
- Water clean up

Colour: Green

Size: 1 L

OIL-AWAY

Quick and easy solution for removing oil, petrol, diesel and grease stains from driveways and garage floors

Uses

- Removing oil stains from driveways including concrete, stone, tarmac, block paving etc.
- General cleaner for paths, patios and driveways

Benefits

- Ready to use, no diluting required
- Available in a handy ready to use spray
- Water clean up

Colour: Clear

Size: 1 L

SALT-AWAY

Removes salt and unsightly white efflorescence from bricks, stone and concrete

Uses

- Removing efflorescence from most common mineral surface including brick, stone, render, pathways, patio areas etc.

Benefits

- Biodegradable safe formula
- Ready to use spray
- Water clean up
- Can be poured, sprayed or brushed on

Colour: Clear

Size: 1 L

WONDER WIPES SPRAY

The ideal solution for cleaning large surface areas. Also the perfect way to keep PVC door and window frames looking good as new

Uses

- Used to clean up wet and semi-cured paints, sealants, adhesives, bitumen's, polyurethanes, expanding foams, polyester fillers and epoxies from tools, surfaces and hands
- Easily remove oil, grease, petrol and inks, yet the powerful cleaning agents are still kind to hands. It contains lanolin to condition skin and prevent dryness and cracking

Benefits

- Contains a powerful anti-bacterial additive
- Cleans up paint, sealant, adhesive, bitumen, expanding foam, oil, grease & much more
- Ideal for all trades including builders, painters, joiners, window installers etc

Colour: Clear

Size: 1 L

XL FIRE CEMENT

A ready mixed blend of thermo setting resins and temperature resistant inorganic fillers that cures when exposed to heat to give a seal that is resistant to temperatures up to 1250°C

Uses

- Fire bricks, fire grates, flue pipes, flue bricks
- Boilers
- Solid fuel burning stove
- Offers excellent adhesion to fire bricks, blockwork, stone and clayware, asbestos free

Benefits

- Easy to apply by trowel
- Excellent adhesion to fire bricks, blockwork, stone and clayware
- Temperature resistant up to 1250°C
- Suitable for domestic and industrial use
- Asbestos free

Colour: Buff

Size: 500 g, 1 kg, 2 kg, 5 kg

BATH & KITCHEN SEALANT

High quality acrylic based sealant for areas of high humidity around the kitchen and bathroom

Uses

- Sealing around kitchen worktops etc.
- Internal sealing around timber and metal window and door frames
- Internal sealing around PVCu window and door frames
- Sealing around baths, sanitary ware, basins and ceramics

Benefits

- Permanently flexible
- Adheres to most surfaces
- Mould resistant
- Overpaintable

Colour: White

Size: 200 ml

HEAT MATE SEALANT

A high modulus permanently flexible, 100% high temperature silicone which is temperature resistant up to 300°C

Uses

- Multitude of industrial uses
- Gasket sealant
- For joints and assemblies, which must be resistant to high temperatures in ducting, metal chimneys, industrial/domestic ovens, heating appliances

Benefits

- Excellent temperature resistance: remains flexible from -50 - +300°C
- Extremely low dirt pick up. - 1 hour tack free.
- Excellent adhesion to non-porous surfaces
- Waterproof seal

Colour: Red, Black

Size: 295 ml

AMERICAN DUCT TAPE

A remarkable tape which is not only thick, strong and 100% waterproof; it also has the most amazing adhesive quality

Uses

- Waterproofing and windproofing scaffolding, windows, doors and exposed roofing – it can also be used on vertical and overhead applications due to its unique hold strength
- Temporarily hold DPM, timber, guttering, sheet material or any other building material that needs to be held in place without the need to clamp

Benefits

- Will stick to most common surfaces including polythene
- Stronger than standard Gaffa tapes
- Waterproof
- Bright orange for easy recognition

Colour: Orange, Silver

Size: 50 mm x 25 m

MAMMOTH POWERFUL GRIP TAPE

A polyester fabric-reinforced double sided tape with a powerful synthetic rubber/resin adhesive, designed to give an incredible immediate bond strength

Uses

- Bonds most materials to themselves or each other
- Suitable for ceramics, wood, glass, plastics, brickwork, PVC etc.
- Can be applied to both porous and non-porous surfaces

Benefits

- Will stick to ceramics, wood, glass, plastics, brickwork, PVC etc
- Weatherproof
- Strong initial bond strength
- Will stick to porous and non porous surfaces

Colour: Clear

Size: 50 mm x 2.5 m, 25 mm x 2.5 m, 12 mm x 2.5 m

KNOW-HOW FROM SITE TO SHELF

No matter how big or small your projects are, trust Sika to deliver superior product performance. With a proud 100 year history of experience, Sika continues to work on incomparable construction projects such as the impressive Hoover Dam in the US, Frankfurt's new landmark the European Central Bank, New York's One World Trade Centre, and the iconic Sydney Harbor Bridge in Australia. A huge range of products for sealing, bonding, protecting and reinforcing reflect over a century of experience, gained on innumerable construction sites worldwide.
